

Dental Benefits

2020-2021 OPEN ENROLLMENT

ENROLLMENT DEADLINE: MAY 15, 2020

Through membership in the Schools Health Insurance Fund, your employer offers you and your eligible family members a comprehensive and valuable dental program.

We encourage you to take the time to educate yourself about your dental benefit options through your employer's membership with the Schools Health Insurance Fund and choose the best option for you and your family.

At this time, all eligible employees and their eligible dependents that previously declined benefits may enroll. Also, where permitted, employees, retirees and COBRA participants already enrolled may change between eligible dental plans, offered by their employer.

How Do I Enroll in Benefits?

Your employer will be holding a PASSIVE dental Open Enrollment this year, which means your current benefits will remain in place at the same coverage level. You must complete an enrollment form prior to **MAY 15, 2020** if:

- you wish to add/terminate dependents from your dental coverage;
- you are enrolling in dental benefits for the first time; or
- you are currently enrolled and you choose to waive dental benefits

Please return your enrollment form to your Benefits Administrator.
